

Inspiration for Generations.

SURFACES FOR EDUCATION

CREATE A LIFETIME OF
LEARNING WITH WILSONART.

A school is more than a place to learn for a few hours. It’s a catalyst that creates strong foundations for students and brings entire communities closer together. A school is a promise to everyone who steps inside: This is a place you can learn, be inspired, and form meaningful relationships with those around you.

To inspire a lifetime of learning over multiple generations, facilities need materials that can embrace current trends, support community pride, and embody future-focused pedagogy. Surfaces that are engaging, enduring, and easy to maintain will also be of the utmost importance to schools looking to make wise long-term investments.

Our broad portfolio of innovative, high-performance materials work beautifully in classrooms, media centers, dining areas, and places in between. With dynamic colors, textures, and custom designs, the right surfaces play a key role in fostering self-belonging and school spirit.

With Wilsonart, you can create learning environments that provide inspiration and value, for today, tomorrow, and well into the future.

Engineered for active learning.

Our Laminate, Solid Surface, and Quartz play different roles in the education environment. When seamlessly and thoughtfully integrated, Wilsonart® Engineered Surfaces can make a school more engaging, enduring, and easy to maintain. With an endless array of options, we provide a one-stop resource that elevates the learning experience.

HPL High Pressure Laminate

Outperforms traditional veneer and Thermally Fused Laminate for impact and scratch resistance
Moisture-resistant surface
Increase functionality with specialty laminates – RE-COVER™ for updating, Chemsurf® for added chemical resistance, or Fire-Rated for code compliance

TFL Thermally Fused Laminate

Industry’s best-matched Thermally Fused Laminate, High Pressure Laminate, and Edgeband solution for design and texture
Maintains visual continuity without compromising design
Cost-effective solution for low-touch applications

SPC Compact Laminate

High-performing structural panel
Offers impact, water, and fire resistance, plus extreme durability for frequent cleaning
Available in SOLICOR™ – specialty laminate with solid color core
Comes in a variety of thicknesses

QTZ Quartz

Offers a rich and welcoming appearance
Non-porous surface that’s stain- and scratch-resistant
Tough, durable, and doesn’t require sealing, for lower maintenance and longer life

SS Solid Surface

Withstands frequent, daily cleanings
Seamless, smooth, and non-porous for stain resistance and easy maintenance
Easy to repair, refinish, or replace for low-cost, long-term service

VDL Virtual Design Library

Evolving online library with virtually unlimited High Pressure Laminate designs
Allows for expressive designs – an excellent graphic wayfinding solution
Our Spectrum offering – allows color matching using an industry-standard color system

WxY Wilsonart X You

Our quality laminate, featuring your custom design
Enhances a school’s identity
Allows surfaces to include instructional wayfinding
Ideal for school logos, photos, or illustrations – use on doors, lockers, wall murals, tables, cabinets, and more

DE Durcon® Epoxy

Durable, molded monolithic epoxy provides a tough, uniform worksurface
Features unmatched resistance to corrosive chemicals and heat
Specialized to meet demands of harsh lab environments
Available from Durcon® A Wilsonart Company. Learn more at durcon.com.

Our products are made with environmental responsibility. For more information, email or call us at education@wilsonart.com and 800-433-3222.

Today's media center is a technological playground where students study, collaborate, and learn at a high level. Spaces like this require a mix of surfaces that facilitate meaningful engagement across the landscape.

HPL High Pressure Laminate

Made for outstanding durability. With our depth and breadth of options, you can create a functional and approachable support desk.

QTZ Quartz

For high-touch applications, our Quartz offers a calming, homelike feel that adds both character and long-term durability.

MB Markerboard

Our Markerboard offers an interactive medium for sketching thoughts, testing new ideas, and taking notes in real time.

TFL Thermally Fused Laminate

For low-touch surfaces, Thermally Fused Laminate coordinates beautifully and makes the most of design budgets.

VDL Virtual Design Library

Our evolving online library allows for expressive designs made from High Pressure Laminate.

Design that's anything but old school.

Social Zone

Students are immediately attracted to collaborative landing spots like these, where tables are topped with Markerboard laminate and WilsonartXYou turns a wall into a unique focal point for information or inspiration.

Technology Central

Compact Laminate tops and Decorative Metal screens set the stage for connection and productivity. Combined with High Pressure Laminate with AEON™ Enhanced Scratch and Scuff-Resistant Technology, you'll have the durability required for high-use areas.

Collaborative Area

Tabletops with our Traceless™ Laminate feature a unique, soft-to-the-touch feel that conceals smears, smudges, and streaks. Need doors for cabinets? Our five-piece door program provides ready-to-install designs for multiple applications.

Dining areas demand a lot from surfaces inside them. Not only do our surfaces offer a menu of school spirit options, they also support a superior level of food safety.

SS Solid Surface

With this easy-to-maintain surface, you can worry less about spills and messes and more about the students who share the space.

SPC Compact Laminate

Across the dining environment, our Compact Laminate looks great and handles impact with ease. It's also seamless and moisture-resistant – non-negotiables when food and drinks are involved.

WxY Wilsonart X You

Show your school spirit with entirely custom laminates, created with camera-ready artwork, photos, or illustrations.

SL Specialty Laminate

Apply Decorative Metal for signage. Make a statement with Chalkboard laminate. Our Specialty Laminates are the secret ingredients for well-functioning dining areas.

Food for thought.

Café

By engraving our Compact Laminate, you can create eye-catching, cost-effective design elements. Further enhance the area's beauty, and protect it for years to come, with food-safe and durable Solid Surface for transaction counters.

Grab and Go

Why settle for close enough? We provide an easy-to-spec combination of High Pressure Laminate, Thermally Fused Laminate Panels, and Edgeband, perfect for coordinating tables, shelving, and other dining surfaces.

Serving Station

Our Solid Surface is an ideal addition to cafeterias – durable, non-porous, and NSF compliant. Provides design versatility through dynamic shapes, inlays, and custom design options.

The modern classroom doesn't sit still. It's always moving, changing, and requires materials that can take a beating. From loose furniture to built-in cabinets, the smartest choice is always Wilsonart.

SS Solid Surface

Non-porous, seamless and color-through, our Solid Surface excels in high-use settings. As a renewable and repairable surface, it also provides easy day-to-day maintenance and long-lasting durability.

HPL High Pressure Laminate

Our High Pressure Laminate is durable, beautiful, and moisture resistant. Specified with AEON™ Scratch and Scuff-Resistant Technology, this surface performs better, longer.

MB Markerboard

By putting our Markerboard on classroom tables, teachers can sketch through ideas with students and visualize progress in real time.

Lessons that last a lifetime.

Makerspace

In this interactive space, Markerboard walls and impact-resistant Compact Laminate tops and cubbies support active learning. When chemicals are involved, our Chemsurf® provides added resistance without sacrificing style.

Neighborhood

Our Compact Solicor™ Laminate works for countless high-touch applications, including risers and wall cladding – anywhere you need remarkable durability. It also has a solid-color core, for a crisp, clean look all the way to the edge. As for wayfinding, our Virtual Design Library has your hallways covered.

Science Lab

Durcon® Epoxy Resin worksurfaces and sinks are chemical- and heat-resistant, non-flammable and non-absorbent, making them ideal for harsh laboratory environments. Available from Durcon® A Wilsonart Company. Learn more at durcon.com.

There’s a lot more to learn.

Visit wilsonart.com and discover thousands of options, countless possibilities, and designs that support a school’s legacy.
